

AQUAZYME

New Technology Low Temperature Laundry Detergent

DESCRIPTION

AQUAZYME is a concentrated liquid detergent with a high level of surfactants and multi-enzymes formulation to give excellent results at low temperatures.
Very effective on most stains.

APPLICATIONS

- AQUAZYME is ideal for use in Industrial, Healthcare and Hospitality Laundries – suitable for use on all classifications (including delicate articles).
- Suitable for all Washing Machines including CBW;s
- Dosage is dependant on the degree of soiling.

Light Soil : 6 to 8ml per kg dry weight of laundry

Medium Soil : 10ml per kg dry weight of laundry

Heavy Soil : 12 to 15ml per kg dry weight of laundry

Recommended temperature, this is dependent on the degree and type of soiling.
From (ex) tap to 60°C

AQUAZYME is designed for manual addition or via the Geochem automatic dosing equipment.

**For further details regarding applications, please consult your Geochem representative.*

The addition of Boost Liquid or Boost Powder is recommended to enhance overall performance and to reduce costs of detergent.

Spotting

Dilute AQUAZYME 1:20 with water

Apply via Spray bottle

Change solution daily

Soaking

For ingrained soiling :

Soak in a 1-20 solution with warm water for 30 minutes
– follow with normal wash procedure.

BENEFITS

- Removes most stains even at low temperature.
 - Improves and maintains quality
 - Less chemical damage
 - Extend linen life
 - Imparts soft feel to towels, garments & linen
- Less water consumption due to Excellent Rinsing properties.
Shorter wash cycle thus fewer rinses
Lower energy use/reduce cost
Reduction in CO₂ emission
No neutralizing sour needed.

Increase wash machine utilization :
No need for cool down
Less sorting (colours can be washed together)

Increases productivity.

PRECAUTIONS

Do not exceed wash temp of 65°C
Do not use with strong alkalies.
Recommended pH of water in a wash solution max 10,5

EMERGENCY TREATMENT

Eye contact: In case of accidental contact with eyes, flush with plenty of tap water.

STORAGE

Keep away from reach of children.
AQUAZYME has a shelf life of 6 months.

AVAILABLE PACK SIZES :

5lt & 25lt
