## Bac Gel

### QUICK DRYING ALCOHOL BASED HAND SANITISER

#### DESCRIPTION

BAC GEL is a powerful hand sanitizer that evaporates away to leave hands dry and sanitized without the use of a towel or air dryer. It contains moisturizers to keep hands soft and prevents drying and cracking.

#### APPLICATIONS (Usage Areas)

BAC GEL can be used after hands have been washed or between washes on a regular basis to maintain sanitized conditions.

#### DIRECTIONS FOR USE

Dispense 0,4 -1mls of BAC GEL directly onto hands neat and rub hands together to give an even coverage. BAC GEL will evaporate off leaving hands sanitized and moisturized.

#### PRECAUTIONS

- Store in original container (with secure lid) away from heat and sources of ignition.
- Avoid eye contact or inhalation.
- Wear protective equipment.
- Do not mix with other chemicals.
- Rinse container thoroughly before disposal.
- Avoid contamination of any water supply with chemical.
- Flammable keep away from heat, sparks and open flames.

#### EMERGENCY TREATMENT

Eye contact: Flush with cold water for 15 minutes and seek medical advice.

Inhalation: Remove from further exposure. Seek medical advice if discomfort or dizziness results.

Ingestion: Rinse mouth with water. Drink water and seek medical attention.

#### SPILLAGE

Contain spillage with absorbent material and dispose in accordance with local regulations. Treat used absorbent as flammable.
