EMERGENCY TREATMENT

INGESTION

Low toxicity if swallowed. Small amounts swallowed incidentally as a result of normal handling operations are not likely to cause injury; however, swallowing larger amounts may cause injury; Seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.

PRODUCT IN EYES

Flood affected eye(s) with copious amounts of lukewarm, gently running water for at least 15 minutes. During this time the upper and lower eyelids should be held apart. Obtain medical attention.

SKIN CONTACT

Brief contact may cause slight skin irritation with local redness. Rinse the affected area(s) with copious amounts of lukewarm, gently running water. Remove contaminated clothing and shoes. If skin irritation exists, seek medical attention. Wash/thoroughly clean all clothing before re-using.

INHALATION

Brief exposure (minutes) is not likely to cause adverse effects. Remove source of contamination or move patient into fresh air. Begin artificial respiration immediately if patient is not breathing and administer supplemental oxygen if available. Obtain medical attention.

STORAGE

Store BATHROOM RENOVATOR in its original container, upright and securely closed, in a cool environment away from foodstuffs and out of the reach of children.

SHELF-LIFE

GeoChem will endorse the results on the product certificate of analysis for BATHROOM RENOVATOR for a period of up to 18 months from the date of manufacture for material in original, unopened, properly stored containers. Beyond 18 months, we recommend the quality of the material be confirmed prior to use, by retesting the certificate of analysis parameters. Once diluted, BATHROOM RENOVATOR should be used immediately.
