Cold Wash

General Purpose Solvent Emulsion Cleaner

DESCRIPTION

Cold Wash is a concentrated degreaser that removes oil, grease, petroleum based waxes, dewatering fluids and any adhering dirt from all metal surfaces.

TYPICAL APPLICATIONS

- Shipping and marine
- Motor Industry and garages
- Industrial Plant
- Mechanical equipment
- Removing of anti-corrosion films
- Cleaning out lubrication systems and oil storage tanks

May be used for floor cleaning, especially where oil spillage has occurred.

METHOD OF USE

Cold Wash is suitable for cleaning small and intricate parts in a Soak Tank. Soak for 15 minutes and rinse with water. Cold Wash can be brushed on. After a short penetration period, flush with water.

WARNING

- Cold Wash has a closed flash point of (not less) than 45°C. Observe strict safety measures against fire.

HANDLING PRECAUTIONS

In common with most detergents, this product has a de-fatting effect on the skin. Operators should wear PVC (not rubber) gloves, aprons, eye shields and protective footwear if necessary. Avoid exposure to high concentrations of vapour. When spray applied, operators should wear an approved industrial respirator or total face visor, as appropriate.

EMERGENCY TREATMENT

Skin contact: In case of contact, immediately flush skin with plenty of water for at least 15 minutes whilst removing contaminated clothing and shoes.

Eye contact: Check for and remove any contact lenses. Immediately flush eyes with cold running water for at least 15 minutes, keeping eyelids open. Seek medical attention immediately.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

Ingestion: Do not induce vomiting unless directed to do so by medical personnel. Seek medical attention

STORAGE

Store in original container undercover in a cool dry place.

Keep container tightly closed when not in use. Keep away from the reach of children.
