EXTRACT P

DETERGENT CONCENTRATE FOR CARPET CLEANING MACHINES

DESCRIPTION

A concentrated low foaming powder for use in hot water extraction carpet cleaning machines

APPLICATIONS (Usage Areas)

For use in all automatic carpet cleaning machines – Institutions e.g. Hospitals and Hospitality sectors. Ideal for Industrial and Domestic use. Can also be used in manual cleaning applications. The boosted alkali provides for greater soil removal properties.

DIRECTIONS FOR USE

Pre-treat heavily soiled areas with a suitable traffic lane cleaner. (All Brite is recommended)
Pre-dissolve extract in warm water before adding to the tank.

Additions:

Dose at 5g per Litre of water.

Apply to carpet. Follow with rinse using clean water

In odd cases, foam may be generated while cleaning.

This is normally due to the fact that residual high foaming detergent from previous cleaning application is being extracted by the carpet cleaning machine.

Addition of a small amount of antifoam to the liquid as per directions on the antifoam label or data sheet will eliminate the foam.

BENEFITS

- Fragranced All-in-One CARPET CLEANING detergent
- Boosted alkali
- Equally effective in hard or soft water
- Rinses easily

PRECAUTIONS

**ALWAYS TEST FOR COLOUR FASTNESS.
DO NOT COVER WET CARPET
EXTRACT P IS MILDLY ALKALINE**

- Avoid direct contact with eyes and skin
- Do not ingest product
- Keep out of the reach of children

EMERGENCY TREATMENT

Skin contact: Flush with water, wash contaminated clothing before reuse. If irritation develops, seek medical advice.

Eye contact: Rinse immediately with plenty of water for 15 minutes with eyelids held wide open. Seek medical advice.

Inhalation: Move person to fresh air and seek medical advice.

Ingestion: Do not induce vomiting. Drink 2 glasses of water and seek immediate medical attention.

STORAGE

EXTRACT P has a shelf life of two years. Once dispensed use immediately. Store in a cool, dry place.

Conditions to avoid:

Temperatures above 30C

Incompatible materials:

Acids, moisture and oxidizing materials.
