

Compact
GeoGrill
Powerful Grease Cleaner

OVEN AND GRILL CLEANER

DESCRIPTION

GeoGrill is a clear liquid, of low viscosity. It contains alkalis, wetting agents, grease cutting solvents, corrosion inhibitors and detergents. It has no odour.

APPLICATIONS (Usage Areas)

Used for the cleaning of ovens and grillers, stainless steel cooking utensils, frying pots, flat tops and generally all surfaces where burnt on food and carbon residues must be removed.

DIRECTIONS FOR USE

Spray or brush at a dilution of between 1 and 10% with water onto the surface that is to be cleaned and allow to stand for 5-10 minutes. Rinse with water or wipe off with wet cloth.

FOR BAKED CARBON DEPOSITS:

In ovens and on grillers, warm surface to + - 65 C and spray or brush on GeoGrill. Allow to stand for 5-10 minutes, then wipe off with wet cloth.

FOR HEAVILY SOILED SURFACES:

Use scraper to loosen deposits. Spray or brush on GeoGrill. Allow to stand for 5-10 minutes, then wipe off with wet cloth.

PRECAUTIONS

GeoGrill contains strong Alkalis that saponify the fat and remove the carbon. Contact with skin and eyes should be avoided.

- Wear impervious rubber gloves.
- Wear safety goggles.
- Do not use with other cleaners and acids.
- Do not ingest product or inhale vapour.
- Do not leave in direct sunlight.

EMERGENCY TREATMENT

Sensitive skin contact: Wash immediately with plenty of water.

Eye contact: Rinse immediately with plenty of water and obtain medical attention.

Inhalation: Move person to fresh air.

Ingestion: Drink plenty of milk or water. Do not induce vomiting. Do not attempt to neutralize. Obtain immediate medical attention.

STORAGE

Conditions to Avoid

Temperatures above 30 C (degrees centigrade)

Keep away from the reach of children.
