

Microspray

QUICK DRYING ALCOHOL BASED DISINFECTANT

DESCRIPTION

Microspray is a clear liquid with an alcohol odour. It contains bactericides in a fast drying carrier that requires no rinsing after application.

APPLICATIONS (Usage Areas)

Microspray is ideal for the post cleaning disinfecting of floors, walls, utensils, table tops, counter tops, and equipment in the food and beverage industry, as well as in fish and poultry processing plants.

DIRECTIONS FOR USE

Microspray is sprayed onto the surface and evenly distributed with a clean, dry cloth or paper towel. Allow to dry. No rinsing is required. Microspray will not taint the flavour of foodstuffs.

As a post hand washing step, Microspray can also be applied to clean, dry hands and allowed to air dry. No wiping or rinsing of hands is necessary.

BENEFITS

Broad spectrum efficacy
High level of germicidal activity
Quick drying

PRECAUTIONS

Microspray contains alcohols.

- Do not use with other detergents
- Avoid contact with heat sources
- Flammable
- Do not ingest product
- Keep out of the reach of children

EMERGENCY TREATMENT

Irritable / Broken skin contact : Flush immediately with soap and water, wash contaminated clothing before reuse. Seek medical advice.
