Rustoff

INSTANT RUST STAIN REMOVER

DESCRIPTION

Rustoff is a concentrated clear liquid acid that works instantly to remove rust stains on contact. Being acidic, Rustoff should be spotted on fabrics or other surfaces to check suitability and immediately neutralized with ammonia if undesirable results occur. **Take not of the precautions before using Rustoff.**

APPLICATIONS (Usage Areas)

Rustoff is an ideal spotter for rust stains on garments in laundry applications. Rust stains on hard surfaces in kitchens, factories, households, etc can be eliminated when spotting with Rustoff.

DIRECTIONS FOR USE

Laundries:

Wet the stain with Rustoff and allow a few seconds for the stain to fade. Rinse the spotted area with water and add the garment to the normal wash cycle. Certain fabrics are not compatible with Rustoff and a pre-spotting test is highly recommended.

Hard Surfaces:

Add Rustoff directly to the stain and allow a few minutes for the stain to fade. Rinse with fresh water.

BENEFITS

Quick acting
Economical
Safe on most fabrics and colours

PRECAUTIONS

Rustoff contains hydrofluoric acid.

- Do not use with other detergents
- Avoid direct contact with eyes and skin
- Wear impervious rubber gloves
- Do not ingest product
- Keep out of the reach of children
- Neutralize with ammonia solution

EMERGENCY TREATMENT

Skin contact: Flush immediately with soap and water or ammonia solution, wash contaminated clothing before reuse. Seek medical advice.

Eye contact: Rinse immediately with plenty of water for 15 minutes with eyelids held wide open. Seek urgent medical attention.

Inhalation: Move person to fresh air and seek medical advice.

Ingestion: Do not induce vomiting. Give 2 glasses of milk or water to drink and seek immediate medical attention.

STORAGE

Rustoff has a shelf life of two years. Once dispensed use immediately.

Conditions to avoid:

Temperatures above 30C

Incompatible materials:

Bases, acids, oxidizing materials
